

	<b>Energy Protection*</b> 85-90%	<b>Most Affordable</b> <b>Ideal for:</b> Babies, Young Children, Students, City or Suburban Dwellers, budget minded who want very good protection for an excellent price. <ul style="list-style-type: none"> <li>• A <b>necessity</b> for you if you live around technology- even if you are not using it much or at all.</li> </ul>
	<b>Energy Protection*</b> 90-92%	<b>Excellent Value</b> <b>Ideal for:</b> people who carry a cell phone, use a computer daily, live in a city, have WiFi or work or live in an area with WiFi or WiMax. <ul style="list-style-type: none"> <li>• Strong protection for you from all kinds of negative energy - including other people's stress or bad moods.</li> </ul>
	<b>Energy Protection*</b> 94-96%	<b>Recommended</b> <b>Ideal for:</b> People with daily use of cell phone 4+ hours and/or adults with daily use of computer 6-10 hours <ul style="list-style-type: none"> <li>• Strong physical and emotional protection. Wearers love this Shield because it reduces stress, enhances intuition, internal calm and a sense of well-being.</li> </ul>
	<b>Energy Protection*</b> 99.99%	<b>Total Protection</b> <b>Ideal for:</b> people who do not want to take any chances with their health. <ul style="list-style-type: none"> <li>• Energy sensitive adults who know they need maximum protection</li> <li>• Adults who simply want <b>total protection</b></li> </ul>

## Changing Lives for the Better

Since 1990, tens of thousands of satisfied customers wear Shields. Included among them are prominent politicians, professionals of every walk of life, children, and even pets.

### Dr. Wayne W. Dyer, *The Power of Intention*

I wear my BioElectric Shield when I travel and I've noticed a significant shift in my energy, particularly after long periods of time on airplanes.

During all the years I have been testing people for these devices, the only one which tests as best is the BioElectric Shield. I keep 4 different company products in my office, but when I test each patient to see which is the most supportive to their own energy field, the BioElectric Shield tests best in 95 out of 100 times.

Dr. David Getoff

"The Shield transformed my life [after being struck by lightning]. When I wear the Shield, I have more energy, greater clarity of thought and better perception. I see energy now, and I can tell you, it balances the body all the way to the level of the DNA. I recommend it every chance I can."

-Dannion Brinkley, *Saved By the Light*

# Protect Your Health. Calm Your Mind. Energize Your Body.

Do you spend much of your time around computers, cell phones, fluorescent lighting or other electrical equipment?

Are you impacted by other people's negative energy, stress or moods?

Do you experience low energy, irritability or stress?

Does air travel tire you?

If you answered **yes** to any of these questions, you could seriously benefit from wearing a **BioElectric Shield**.

Whether it's from electromagnetic radiation or the stress of living in today's fast-paced, deadline-driven world, many people's energy fields are under attack — at risk from the sources that invisibly deplete your energy.

### Crystal/Physics Technology

The BioElectric Shield is composed of a matrix of precision-cut quartz (and other) crystals designed to balance and strengthen your natural field.

In 1914, Max von Laue won the Nobel Prize in Physics for his discovery of the diffraction of X-rays by crystals. He showed that X-rays could be reflected and redirected with a zinc-sulfide crystal (ZnS), much like mirrors can reflect light.

William Bragg won the Nobel Prize in 1915 for establishing "Bragg's Law," which determines the specific crystal spacing needed to reflect and redirect any type of electromagnetic energy.

Since those early discoveries, scientists have used natural crystals to reflect and redirect other types of electromagnetic radiation (like gamma rays). Different crystals resonate at different frequencies. Because of this fact, the first short-wave radios used quartz crystals which could stabilize and amplify certain fixed frequencies. For the same reason, the first lasers were made from rubies.<sup>1</sup>

Utilizing these unique characteristics of crystals, the Shield strengthens your energy in two ways. First, by deflecting and redirecting energies that negatively affect you and secondly, by reinforcing your own natural energies so they are less susceptible to outside disturbances.

### Research Proves Enhanced Human Performance

Since 1990, a wide range of studies has proven the Shield's strengthening effects on the human energy system. Research documents greater resistance to any stress-producing stimuli, including computer and cell phones, stressful people or situations. Enhanced peak performance and health are shown by increased strength and healthy acupuncture profiles. Detailed accounts of these studies can be found on our website at [www.bioelectricshield.com](http://www.bioelectricshield.com).

### Protection from Electromagnetic Radiation

Heart Rate Variable (HRV). An independent research group found that heart rate increased when individuals held a cell phone. Wearing a Shield, heart rate remained stable.

Computerized Electromyography (EMG). Test subjects sitting in front of a computer for five minutes experienced of 16.89% reduction in muscle strength. After wearing the Shield for 5 minutes, strength was restored in all 25 subjects. In 19 of the 25 subjects, the wearer's strength was BEYOND their initial reading.

Applied Kinesiology (AK) Two studies showed 49 out of 50 subjects weakened when exposed to the emf from a battery operated clock. Strength was restored in all 49 when they put on a Shield.

**The inventor of the BioElectric Shield, Dr. Charles W. Brown** is a Board Certified Chiropractic Neurologist who has practiced in Boston, MA & Billings, MT for 25 years as a Pain Specialist. He has studied nutrition for over 21 years and is certified in Applied Kinesiology. Drawing from his extensive education, knowledge of physics and years of working with the human mind and body, Dr. Brown created the BioElectric Shield in 1990.

### Biology, Mood, Performance

Computerized Acupuncture. 51 acupuncture points tested energy flow in body organs, neurological and hormone functions. After wearing the Shield for 3 weeks, energy flow was more balanced, indicating improved health, physical vitality and peak performance capabilities.

Sound Resonance Research. Sharry Edwards, PhD. found that patients' voice patterns went into "perfect resonance" after wearing a shield for just five minutes - "unheard of, and most impressive, demonstrating the balancing and strengthening effect the Shield has on the human body".

Dynamometer (measures finger strength). Readings taken by an Occupational Therapist. Baseline strength was measured. After wearing the Shield for one minute, there was an average increase in strength of 24%.

### Stress Reduction

Dynamometer (measures finger strength). Readings taken by an Occupational Therapist. When visualizing a stressful situation, 94% (of 50 subjects) showed decreased hand strength. When wearing the Shield, subjects remained strong.

Applied Kinesiology. When asked to visualize a stressful situation, 47 out of 50 subjects showed a decrease in muscle strength. Holding a Shield, all 47 subjects regained their strength even while visualizing the same stressful situation.

### Placebo Effect Ruled Out

Double Blind Studies. Original and replicated study. Each doctor tested both a placebo and authentic Shield to see if either would strengthen a previously weakened muscle. The Shield strengthened all 50 patients; the placebo none.
