

Active EMF Protection Technology

Blushield Active EMF Protection Technology is an Active solution for EMF (emissions from wireless products or items powered by mains power) which is one form of incoherence within our environment. The Blushield uses power to mitigate undesirable EMF (artificial electromagnetic fields) at the cellular level.

What Causes EMF

- ⇒ Mobile phones.
- ⇒ Computers, laptops.
- ⇒ Portable devices.
- ⇒ WiFi routers.
- ⇒ Smart meters.
- ⇒ Baby monitor.
- ⇒ Solar Invertors.
- ⇒ Digital Television.
- ⇒ Power lines.
- ⇒ Electrical appliances.
- ⇒ Mobile phone towers.
- ⇒ Lighting & other electrical equipment.

How May it Affect You?

Affecting the body at the cellular level, undesirable EMF makes it difficult for the body to repair and heal itself. EMF stress may result in the following:

- ⇒ ElectroHyperSensitivity EHS.
- ⇒ May permeate the Blood Brain Barrier (BBB) which protects the brain.
- ⇒ May allow potentially toxic substances to accumulate in the brain.
- ⇒ May damage and cause mutations in DNA.
- ⇒ May increase free radicals.
- ⇒ May put undue stress on the heart and organs.
- ⇒ May cause cells to retain toxins.
- ⇒ May prevent nutrients getting into the cells.
- ⇒ May reduce melatonin levels.
- ⇒ May interfere with sleep and the immune system.*

Blushield Creates Coherence

The unnatural EMF signals from anything electrical and wireless creates an incoherent environment around us and within us. The body interprets these artificial EMF signals as a stress signal which the body tries to fight, thus using energy which would normally be focussed on keeping the body and brain functioning efficiently.

Affecting the body at the cellular level, undesirable EMF makes it difficult for the body's ability to repair and heal itself. Working at the cellular level, Blushield eliminates the biological & psychological stress of this toxic influence.

The portable Blushield personal products are perfect when out and about. However, making your entire home or office a coherent environment is where the plug-in models come into their own. This change may take a few days to establish with lasting effects.

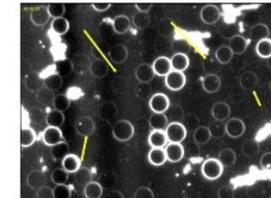

When there is coherence in the body the following results may be experienced:

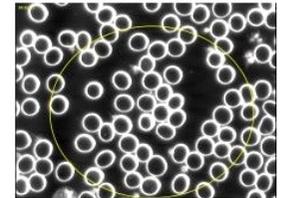

- Increased energy
- Less fatigue
- Feeling more balanced
- Increased stamina
- More strength
- Feeling less stressed
- Improved mood
- Sounder sleep
- Less irritability
- Less anxiety
- Feeling more relaxed
- Feeling more coherent

Live Blood Cell Analysis

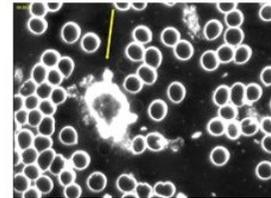

Numerous tests conducted show the positive effects of using the Blushield products. Blood tests taken from various people determined what happened to their overall health when exposed to Blushield technology. Blood tests showed reduced oxidation, less crystallisation, improved oxygenation, reduced parasitic action, reduction of the Rouleaux formation effect and normalisation of lymphocytes. See below.

The red cell's membranes are ghosting (exploding) due to their weakened state. Red cells are literally disappearing while being watched during live blood analysis.

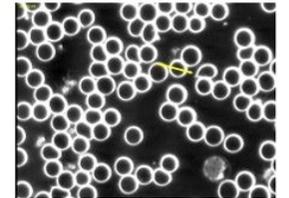

Within 2 months the red cells have notably stronger membranes and fewer parasites. Despite the subject having a cold there is a marked improvement in blood quality.

There is a lot of parasite and crystallisation taking place in the blood. Red cells are also bunched together and are of irregular shape.

Tester's comment: "High levels of inflammation and oxidation may relate to your lifestyle/occupation or diet".

Crystallisation has ceased and the red cells are of a more regular shape and distribution. A remarkable improvement despite no change in diet or lifestyle.

Tester's comment: "Extremely reduced levels of inflammation and oxidation are amazing considering you have not changed your diet or lifestyle/occupation and had a cold".

Results

Lymphocytes went from 25 to 15 showing a normalisation of the immune system. This is reflected in the blood. Obvious changes are apparent and the walls of the blood cells have normalised within a very short period of time.

The Gold Series

Active EMF protection devices for people from all walks of life. Practical solutions for everyday use and every budget. Delivering high quality at affordable prices and using state-of-the-art microprocessor technology.

Scalar Gold Mini Portable

Covers 3 meters diameter
Great for phones, WiFi, devices, air and car travel, computers and for shopping centres etc.

W48mm x H85mm x D13mm

Scalar Gold Portable

Covers 6 meters diameter
Great for phones, WiFi, devices, air and car travel, computers and for shopping centres etc.

W57mm x H96mm x D18mm

Scalar Gold Plug-in

Covers 90 metre diameter

Scalar Gold Plug-in Large

Covers 180 metre diameter

Scalar Energy Technology

As all fields in Nature are scalar, the Blushield technology acts in accordance and harmony with natural laws and the natural laws pertaining to the body's inherent rhythms and cycles.

Albert Einstein, the most influential physicist of the 20th century, documented how scalar energy could be practically applied for the benefit of humanity. Adding to Nikola Tesla's genius and 30 years of development, the Development team of Blushield have created the most advanced EMF protection available today.

PROTECT YOURSELF

Live Work Play
in a bluzone

Eliminate as much EMF as possible in your life.
